

**REPRODUCTIVE
HEALTH AND RIGHTS**
(AFRICAN PERSPECTIVES
AND
LEGAL ISSUES IN NIGERIA)

This book provides intellectual insights into practices, legislations and policies which impact women's reproductive health and rights and shape their reproductive choices in Africa. It is written with a view to fill the dearth of texts in this novel area of law.

An exhaustive list of Appendices has been added to serve as a compendium of treaties, statutes and legislations on reproductive health and rights and stimulate further researches.

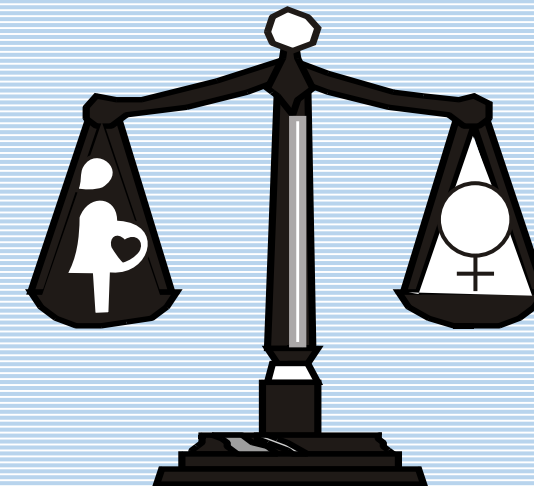

The book will serve as a valuable reference text on reproductive health and rights in Africa.
